Source:

1.The import data was sourced from the "Statistics Database Query" of the Customs Administration, Ministry of Finance, and compiled from 15 tariff subheadings. The data was obtained on November 22, 2024.

2.Data on the domestic industries is based on questionnaire responses from three domestic producers:
Yieh United Steel Corporation, Tang Eng Iron Works Co., Ltd., Tung Mung Development Co., Ltd.,

Note:

1.The base year is 2019.

2.Apparent Demand = Domestic sales + Total imports.

Source:

1. The import data was sourced from the "Statistics Database Query" of the Customs Administration, Ministry of Finance, and compiled from 15 tariff subheadings. The data was obtained on November 22, 2024.

For import price, an additional 0.39% of the CIF value was included to account for port unloading fees, customs clearance fees, trade promotion service fees, and transportation costs.

2. Data on the domestic industries is based on questionnaire responses from three domestic producers:

Yieh United Steel Corporation, Tang Eng Iron Works Co., Ltd., Tung Mung Development Co., Ltd.,

Shipping charges have been deducted from price of domestic sales; inland freight, ocean freight, insurance and customs clearance fees have been deducted from price of export sales .

Note:

1. The base year is 2019.

2. Price undercutting = Price of domestic sales - Import price

Sources: Data on the domestic industries is based on questionnaire responses from three domestic producers: Yieh United Steel Corporation, Tang Eng Iron Works Co., Ltd., Tung Mung Development Co., Ltd., Shipping charges have been deducted from price of domestic sales; inland freight, ocean freight, insurance and customs clearance fees have been deducted from price of export sales .

Note:

1. Productivity = Weighted-average Productivity (production ÷ one thousand working hours)
2. Utilization of capacity = production ÷ average capacity
The production line of the Certain Cold-Rolled Stainless Steel Products can be converted to produce 200 series, 300 series and 400 series products, therefore calculating capacity utilization includes the entire production of the Certain Cold-Rolled Stainless Steel Products regardless of series.
3. Non-operating investment Income is not included.
4. Return of Investment = Net profit after tax on similar goods ÷ Total assets used in the production of those goods
5. Cash Flow is Operating Cash Flow.
6. The production line of the Certain Cold-Rolled Stainless Steel Products can be converted to produce 200 series, 300 series and 400 series products. The number of employees employed, total working hours and total wages are based on all data of the stainless steel cold rolling mills of the three domestic manufacturers that responded to the questionnaire.
7. Hourly Wages = Total Wage ÷ Total Working hours

Countries concerned (US\$/metric ton)	1,811	1,766	2,601	3,276	2,219	2,314	1,815
% change from base year		-2.5	43.6	80.9	22.5		-21.6
% change from previous year		-2.5	47.2	26.0	-32.3		-21.6

Source: The petitioner. The database the petition inquired is as follows:

1. China: Mysteel.com; worldstainless.
2. Korea: SMR Stainless Club; worldstainless.
3. The export data are sourced from IHS Markit and are compiled from HS codes: 721932, 721933, 721934, 721935, 722020.

Note:

1. The base year is 2019.
2. Utilization of capacity = Production ÷ Capacity
