**RE : Final Injury Investigation and Its Hearing of Antidumping
Case on Certain Flat-rolled Steel Products, Plated or Coated
with Zinc or Zinc-Alloys**

(COMPANY NAME)
(ADDRESS)
(TELEPHONE NUMBER)
(FACSIMILE NUMBER)

To whom it may concern:

Following an affirmative final determination by the Ministry of Finance (MOF) that imports of certain flat-rolled steel products, plated or coated with zinc or zinc-alloys from Mainland China and Korea are being dumped in the R.O.C., the International Trade Commission (ITC) of the Ministry of Economic Affairs instituted its final investigation on November 29, 2016 to determine whether the domestic industry concerned in the R.O.C. is materially injured, or is threatened with material injury by the above mentioned dumped imports.

In order to proceed with the final injury investigation of this case, the ITC will conduct a hearing to provide an opportunity for face-to-face communication between domestic producers, foreign producers, importers, and other interested parties. The hearing will be held on January 4, 2017, 9:30 a.m., at the 2nd floor of the Application and Certification Building of the Bureau of Standards, Metrology and

Inspection(BSMI), which is located at No.4, Sec.1, Jinan Rd., Taipei City 100, Taiwan(R.O.C.) Those who wish to attend the hearing are encouraged to register with the ITC through the ITC's website www.moeaitc.gov.tw, or by fax or email before December 30, 2016. Persons signed up for presenting their views are also invited to attend the pre-hearing meeting, which will be held at 9:10 a.m. prior to the hearing, in order to arrange the sequence and time allocation of the presentations in the first session of the hearing.

In addition, for the convenience of all parties to defend their interests at the hearing, we will post the non-confidential information relevant to the injury investigation on the ITC's website ([http:// www.moeaitc.gov.tw](http://www.moeaitc.gov.tw)) before December 27, 2016.

Enclosed is the original copy of our official letter in Chinese.
